

OTHERNESS

VERTHANDI TAMAR VALLEY RIESLING

“I was super excited, when receiving the chilled juice from Tasmania. Tasting the elegance and purity of the juice, I knew we were going to end up with something special in the bottle. The tight acid structure, screamed Off Dry to me, in terms of wine style. We monitored the ferment daily, tasting and waiting for that moment of balance. Coming in at 9.4% alcohol and 35 g/L Sugar, we found balance and contentment in the glass”
- John Hughes (winemaker).

ABOUT OTHERNESS

Otherness is a project representing a series of winemaking collaborations between esteemed local winemakers and Grant Dickson. The Otherness brief is pretty simple: Let's make wines together that we want to drink rather than wines that we know we can sell.
